Chief Elliott of the fire department is much criticised for ordering his men into the building at the front entrance when he well knew the walls were unsafe. Elliott says they were sent where duty required and could not have been expected to do otherwise.

The store stood at 213, 215 and 217 Woodward avenue and was filled with stock. The fire started in the engine room near an elevator shaft and burned so rapidly that when the firemen arrived every part of the structure was blazing and nothing could be saved. The front wall gave away at 9:15, falling outward.

The loss is estimated at \$80,000 on stock and \$25,000 on the building. The insurance is said to be ample.

Y. M. C. A. Building is Burned.

CONFERENCE OF MORMONS.
President's Proclamation Regarded as a Pardon.

SALT LAKE CITY, Utah, Oct. 6.—The mammoth tabernacle of the Mormon church was crowded yesterday morning when President Wilford Woodruff called to order the sixty-fifth semi-annual conference of the Church of Jesus Christ of Latter Day Saints.

After the singing of an anthem by the tabernacle choir President Woodruff delivered his annual address, which treated mainly of the recent proclamation of President Cleveland granting amnesty to the adherents of the Mormon church.

President Woodruff was followed by President George Q. Cannon, who spoke briefly on the evils of card playing and round dancing. Secret societies also came in for a vigorous denunciation.

At the afternoon session Joseph F. Smith, a descendant of the prophet, presented his annual report as a member of the first presidency. He strongly emphasized the necessity of trained Sabbath school teachers. The report treated at great length of the Young Men's Mormon associations, which had made great strides in membership all over Utah during the last six months. He concluded by urging the Latter Day Saints looking carefully to the training and salvation of their children.

The conference will continue for several days.

HER SON WAS WAYWARD.
Mrs. Butler Kills Herself Because of Her Boy's Wildness.

NEW YORK, Oct. 6.—The first news of a sensational case of suicide became public last night in Mount Kisco. It was kept secret on account of the prominence of the family. The victim was Mrs. J. E. Butler, a wealthy widow, who shot herself through the head on Monday last. Mrs. Butler was the wife of a Confederate general, who died a year ago. They did not live happily together and they separated some years ago. She had lived in Mount Kisco ten years. She was 50 years old. A son was the result of their marriage, bearing the name of Guy, who is now in the west. It is said that it was on account of his waywardness that the mother took her life.

TARIFF COMPLICATIONS.

Developments That Must Embarrass Secretary Carlisle.

WASHINGTON, Oct. 6.—Another complication has arisen in the determination of the question as to whether the entire woolen schedule of the new tariff act goes into effect Jan. 1, 1895, or only so much of it as relates to articles of which the component of chief value is wool. The action of the New York board of appraisers in deciding the wool schedule should go into operation Jan. 1 has been followed by the collector of Baltimore, who recently collected the old and highest duty on an invoice of mohair goods. Should the secretary now decide against the New York board and the collector at Baltimore and instruct the collectors to charge the new and lower rate on hair and other like goods his action certainly would bring the question into the courts for determination. And in case the courts decided against the secretary every collector who had charged the lower rate, even on the express orders of the secretary, would be personally liable for the difference. It would seem, therefore, Secretary Carlisle will be compelled either to sustain the New York board or place every collector in the position of having undercharged on a very large case of goods.

Probing Sioux City Corruption.
SIOUX CITY, Iowa, Oct. 6.—The prosecution of the members of the board of supervisors on criminal charges came to a head by F. M. Ferris, E. C. Peters and N. Desparois, members of the citizens' and taxpayers' committee, filing information against Supervisors Huntington, Strange and Epps, accusing them of obtaining money by false pretenses and misdemeanor in office. They were arrested. Other warrants will be sworn out.

Whisky Takes a Drop.
PEORIA, Ill., Oct. 6.—Whisky dropped 10 cents on the board of trade yesterday, but it was the reduction agreed upon at the trust directors' meeting which was mentioned in the circular sent out to the trade announcing the discontinuance of the special cash rebate and made to make the prices equivalent to what they would be with the 7 and 3 cent rebates. The reduction did not go into effect until yesterday.

DETROIT, Mich., Oct. 6.—William D. Trombley, the missing Chauvin heir, came into Detroit from New York shortly before midnight with John H. No arrests have been made.

BALTIMORE, Md., Oct. 6.—The Giants took the second game of the Temple cup series yesterday after an exciting contest which zigzagged from beginning to end and was not settled until the last hand was out, three Orioles being left on the bases in the ninth when Meekin threw Brodie out at first. PUTS VON CAPRIVI
IN A BAD POSITIONLIBERAL PRESS IS AGAINST
HIM AGAIN.

Emperor Now Asks Him For a Report On the Matter—Czar Is Not Dead, Reports Being Sent Out to Influence the Market—Foreign News.

LONDON, Oct. 6.—A report that was obviously intended to affect securities listed on the various continental bourses reached London from Amsterdam this morning to the effect that the czar of Russia was dead.

The officials of the Russian embassy here say that they have heard nothing which would tend to confirm the report that the czar has suffered a relapse. The Russian officials discredit all such rumors.

The stock market here was not influenced by the report, but at Amsterdam and Berlin securities were depressed until it was ascertained that the report was without foundation. The origin of the rumor could not be traced any further than that it was first circulated at Amsterdam.

Advices from St. Petersburg received here during the last twenty four hours report the condition of a czar as being critical.

HUNDREDS OF LIVES LOST.
Cyclone in Japan Blows Out Whole Villages—Many Vessels Foundered.

SAN FRANCISCO, Cal., Oct. 6.—Japanese advices bring news of a terrible cyclone on Sept. 11 by which villages in the neighborhood of Kobi were swept away and people killed. Many vessels are supposed to have been lost. The cyclone swept on to the northeast, afterward wrecking Logaish. Its path seems to have been unusually wide, for at Marinopol it devastated the country to a point eleven miles inland and had its outer edge far upon the sea. Marinopol was practically blotted out of existence. Not three houses out of a hundred are left standing. It is estimated that over 200 people perished in this town alone. North of Marinopol the storm seems to have made a sudden turn to the eastward over Delaga point, its left edge inflicting slight damage on the town of Berdonski. Houses were wrecked and a dozen persons were killed by falling timbers.

TO DIVIDE COAL PROFITS.
Operators Make an Agreement With the Chicago & Eastern Illinois.

TERRE HAUTE, Ind., Oct. 6.—Block coal operators who control 80 per cent of the 1,250,000 tons annual output of this quality of Indiana coal have entered into what is practically a partnership with the Chicago & Eastern Illinois railroad company. The basis of the new relation is for the operator to fix a cost price for his coal on the cars at the mine, while the railroad company will fix a cost freight rate, which is said to be considerably lower than \$1.10, the two to constitute the cost price in Chicago. The amount of the selling price in excess of this will be divided equally between the railroad company and the operator. It is expected this agreement will put new life into the block coal industry.

Grand Jury Indicts Strikers.
TERRE HAUTE, Ind., Oct. 6.—The grand jury has returned indictments against Roberts, Miller, Sourwine, Eppert and McDonald for conspiracy to murder by wrecking the Big Four train at Fontanet during the strike. Fry and Tulley were released, as was also Ed Holloway, the weak minded brakeman from whom the railroad detective obtained a confession that he had thrown the switch. The grand jury investigation showed that Holloway had no part in the crime. He will bring suit against the railroad company for damages.

The residents of Tientsin are taking every precaution possible against an anticipated attack on the part of the natives.

Intiguing for Abdication.
SHANGHAI, Oct. 6.—Palace intrigue at Peking favors the abdication of the emperor and the succession of Prince Kung's son. The position is so alarming that all the foreign women and children, including the families of members of the customs service, have been ordered to leave forthwith.

Efforts made to induce the Chinese to desist from making Shanghai headquarters for military operations have been frustrated through the cussedness of the British and German authorities in openly espousing China's cause in order to facilitate the bogus transfer of Chinese steamers to foreign flags.

This is evidently all America will do for the prisoners, abandoning the demand for a speedy trial.

Fourteen of the crew of the British bark Brandon of Quebec are supposed to have been lost. The Norwegian ship Theora was lost off Turtle harbor, but all were saved. It is likely that the number of lives lost will never be known, as communication with the Keys is difficult.

Alix Tries a Fast Mile.
CHILLICOTHE, Ohio, Oct. 6.—The excellent program arranged for the closing day was badly interfered with by weather. In addition to the cold, raw air several showers fell during the day, which left the track soft. Alix is quite a favorite here and rather than disappoint the 3,000 people that were out to see the sweet little queen start, Monroe Salisbury sent her out. Alix trotted a mile in 2:06½, a great performance, considering the soft track.

INCREASED OUTPUT REPORTED.

Dun Says Wheat Is the Lowest Ever Known For Options.

NEW YORK, Oct. 6.—Dun's Weekly Review of Trade says: "With the chief money crops of the west and south sinking in value it is not strange that purchases of manufactured products are smaller than was expected. Wheat has touched the lowest point ever known for options and cotton the lowest ever known in any form with the present classification, and the accumulation of stocks in both products is discouraging to purchase for an advance. Producers are compelled to sell at prices below the ordinary cost of raising crops and in some western states there is also a lamentable failure of the corn crop. Under the circumstances it would be very strange if the demand for manufactured products should be quite as large as in other years."

"Wheat suffers most from the accumulation of stocks in sight, which are far beyond what is usually expected for the season, and the exports for September are unusually small. For the first week of October Atlantic exports were 1,097,372 bushels, against 863,746 last year, and western receipts were 4,615,800 bushels, against 6,180,686 last year, and these figures give some encouragement, but have little influence in view of the unusual visible supply. The price for cash wheat is a small fraction higher for the week. Corn receipts at the west have been only a third as large as they were last year, with exports amounting to nothing, but the price has not further declined after the heavy fall during the previous fortnight. Pork products are weak in tone, though only lard is quotably lower. Cotton is one-eighth lower, the case price being the lowest known for forty-five years, and considering the difference in classification it is perhaps lower than at any time in 1849, and estimates that the crop is more than 10,000,000 bales are more commonly credited now than estimates of 8,500,000 were two months ago. With favorable weather the yield seems likely to be the largest ever known."

"The condition of the industries in some respects more satisfactory. Evidently there is a larger demand for iron products than there was a month ago, though the increase in output has been somewhat greater than the increase in the demand. The structural market is fairly active in the west, without change at the east, and while the coke output has become the heaviest ever known, 149,775 tons for the week, the price is declining, and steps are being taken to limit the supply."

"The boot and shoe trade continues to deliver more goods than in any previous year, as it did in September, and most of the works still have orders for one or two months ahead, although mainly for low or medium-priced goods. There is a little better demand this week for goods of higher quality, however, and the demand for leather is still reducing the reserve."

"The failures for the last week have been 219 in the United States, against 320 last year, and thirty-nine in Canada, against forty-five last year."

KELLY UNDECIDED AS TO THE FUTURE

JANESVILLE DRIVER HAS SEVERAL GOOD OFFERS.

Goes From Here to the Big Lexington Meeting—Directum Not the Horse This Season that He Was Last—Badge and May Douglas Win Again.

John Kelly, the noted driver, whose name will always be connected with that of Directum 2:05½, is in Janesville for a few days and is the guest of Dr. J. B. Whiting. Mr. Kelly goes from here to Lexington, where Kentucky's big meeting opened today.

"No, I have not yet decided what I will do next season," he said in response to a question. "I have several good offers and I do not know yet just which I will accept. I can tell better when I return from Lexington. Du Bois Brothers, whose stables I had earlier in the season, are mighty nice men but their horses were not quite 'good' enough for the fast company they had to go in. They had one good colt, Carbonate, but I directly could beat him and it wouldn't pay me to travel with one horse. The others were all shipped back to Denver. Carbonate reduced the record for his age. Directum was able to cut under it, which really made the great Colorado colt look cheap in comparison."

Mr. Kelly has no hard words for anyone in the Directum matter, although he thinks he was hardly used fairly.

"Mr. Green and myself had the verbal agreement made," he said, "and he had written me to come and make the final contract, but suddenly changed his mind and sent the horse to Mr. Hickok. I saw him on the track and he is not as good a horse as he was last fall."

Badge Wins Again

Driver Easton, the "college bred trainer," rode in front of a fast lot at Hedrick, Iowa, yesterday, when he won the 2:25 class pacing purse with Badge in 2:13½. Toxie E. who won her race here last month was practically her only competitor. The 2:40 pacing purse at the same place also fell to Badge the day before and he only had to go in 2:15 to get it.

Wheeler F., who won a fast race here last July met and defeated Rocker, who won the Janesville free-for-all here in 2:12, at Galena yesterday the best time being 2:18½. Evidently Rocker, or something else, wasn't right.

Zero and Russell B., both of whom won their races here last month were successful at Fulton, Ill., yesterday.

May Douglas, the grey mare that enabled Arthur Leffingwell, of Flossie G. fame, to turn a neat winning in Janesville last month started at Galena and won the free-for-all trotting purse in 2:19. The owner of May told Leffingwell to "take her out and make what he could for himself" so the winnings belong to Leffingwell. When he won here he telegraphed the owner to come down and back her, as she could win, but the owner didn't come, as he didn't believe she was fast enough.

James Scott started Nellie Bly at Jefferson yesterday, and in the course of the race another one ran into him, wrecking the sulky and throwing Scott to the ground. He escaped without injury, as did the colt, although she ran around the track twice.

OLD FARM MAGAZINE PRINTED HERE

O. D. Lincoln, the electric light of Brown Brothers & Lincoln, has a well preserved copy of the "Wisconsin and Iowa Farmer and Northwestern Cultivator," dated "Janesville, Wis., April, 1863," being volume V, number 4 of the publication. Mark Miller was the publisher. The little pamphlet has twenty-eight pages, with a cover, and contains much valuable information on agriculture. Few advertisements appear, although McKee Brothers occupy considerable space in calling attention to their dry goods house, as does F. Whitaker, advertising for wool at the Janesville woolen factory. There are a number of advertisements from Milwaukee, Racine and Waukesha firms and the Kellogg nursery is given space. The pamphlet is a fair specimen of book work for a country office in that early day.

There will be no services here Sunday, but the new minister will be here the following Sabbath. Captain Isaac Miles returned to his home in Indiana, Wednesday, accompanied by his daughter, Mrs. Ed. Hubbell. Several from this vicinity attended the Milton Junction fair, and all decided "T was good to be there."

TEA WORTH \$1,120,000 WAS HERE

Three Trains Loaded, Passed Through in Forty-Eight Hours.

How much money do you think it would take to buy all the tea that was in Janesville yesterday and the day before?

"Can't guess?"

Then hold your breath.

\$1,120,000!

Sounds big, don't it, but three trains have gone through on the Northwestern in forty-eight hours, and the aggregate number of cars was seventy. Each car held 40,000 pounds of tea or 2,800,000 pounds in all. Figure it at forty cents a pound and the total is \$1,120,000. The tea came to Janesville direct from Tacoma, Washington, and was in three trains. The first one consisted of twenty-five cars, the second twenty-two cars and the third twenty cars, all loaded to their full capacity. From here it went to Chicago and from there to the markets of the United States. Tacoma is the great tea town, the crops being sent there from China by boat and from there shipped all over the country.

The Chicago & Northwestern are putting large numbers of new freight cars into service just now. Twenty-five of them, all equipped with patent couplings and air brakes passed through Janesville this morning on their way north for use in the lumber trade. The largest number on the cars was 59,460 which shows that but a few short of 60,000 have been made.

H. S. HOGBOOM WAS CHOSEN.

Former Janesville Man Nominated for the Assembly in Campbell, Minn.

H. S. Hogboom, formerly of this city, has been nominated for state representative in Campbell, Minn. The Moorhead News says: "Major Hogboom is about fifty-three years of age. He came to Minnesota from the state of New York. His father was a Methodist preacher. Major Hogboom answered the first call for volunteers in 1861 and soon secured a commission. He was successively promoted until he had reached the rank of major, which he held when mustered out. Major Hogboom is a fine scholar, has studied law and been admitted to the bar, but has not practiced. He has a fine address, pleasant manners, and is a good speaker. He came to Wilkin county in 1878. He has been a merchant at Campbell, but at present his only business is farming. He has an extensive farm near Campbell, comprising 1,400 acres. Major Hogboom made a good impression on the convention when called upon after nomination."

HOKEY POKEY PARTY A SUCCESS

All Elements Were Combined to Make It Very Enjoyable.

The Hokey Pokey Club's party at the Armory last night was all that was expected of it, which in itself is a high compliment. Pretty decorations, a large attendance and unusually fine music added zest to the enjoyment of the pleasure seeker, and the balance of the winter series will be looked forward to with pleasure.

The reception committee consisted of T. T. Blakeley, chairman; R. James Boyes, Amos Rehberg, Frank W. Gibson, Andy Holmes, John W. Boyes, Misses Hattie Ferrin, Nellie Blakeley, Grace Lovejoy, Beatrice Preller, Calla Butler and Pearl Brooks.

The arrangement committee consisted of H. A. Griffey, chairman; Frank W. Gibson, John W. Boyes and Fred N. Blakeley. Those who had charge of the floor were John W. Boyes, chief; Frank W. Gibson, Amos Rehberg, Andy Holmes and James Boyes.

RIFLE BULLET THROUGH HER EYE

Mrs. Richard Newmiller May Die as the Result of a Hunter's Carelessness.

Mrs. Richard Newmiller, who resides just south of Orangeville, was shot by a hunter Thursday, and is in a critical condition. She was returning from her garden across the railroad when something struck her. She fell unconscious near the railway track, where she was found by the young man who fired the shot. He was one of a party who had been squirrel hunting. In discharging their firearms before reaching town it is supposed that the ball glanced and struck Mrs. Newmiller in the back of the head, at the roots of the hair, passing up over the ear through the frontal bone and through and literally shattering the right eye. She is still living and the wound is not necessary fatal.

ROBBERS LOOT A BAGGAGE CAR

Conductor J. H. Dower Has Two Suits of Clothes Stolen.

Thieves raided a Chicago & Northwestern baggage car that stood in the Janesville yards last night, and Conductor John Dower is now out two suits of clothes and his ticket punch. The robbers pried the side door of the car open and escaped with their plunder for which the police are now looking.

A Madison division work train is now in service on the Evansville cut off of the Northwestern and is engaged in filling in the road bed with gravel.

QUEER LOOKING COUPLE HELPED.

Little One-Legged Man and His Great Big Wife.

A man with a crutch as a substitute for a leg and a three-hundred pound wife who was head and shoulders taller than her spouse, struck town last night and appealed to Chief Acheson for help. They claimed they were from Ohio and were trying to reach Ashland. They didn't have a cent and were in "tough luck" generally. Chief Acheson quartered them at the Union house and this morning they were assisted on their way.

SHARPER IS MERRY OVER HIS CAPTURE

W. H. CARPENTER LAUGHS AT DETECTIVE WALLACE.

He Tells a Reporter that This Is Not the First Time He Has Been On Earth and that Officers Cannot Get Him Across the State Line.

W. B. Carpenter, the man who is charged with burglarizing a rich Chicago widow to the tune of \$1,000, slept in the Janesville jail last night and was taken to Beloit this morning.

"They were mighty afraid I would get away from them at Jefferson," he remarked with a pleasant smile. "When I got off the train there were eight men waiting for me and each had a revolver leveled at my head."

Just what the outcome of Carpenter's arrest will be is hard to tell. He refuses to go to Chicago without requisition papers and as his offence may be shaded somewhat in detail before it is finally reached, the governor of Illinois, with his celebrated liking for men who get into trouble with the law, may think that the case is not worth the expense and refuse to issue the requisition.

Down in Beloit Detective Wallace told a very dime novelist story about Carpenter's desperate resistance. Wallace enticed Carpenter to the state line in his buggy and says:

"Just as we reached the line on State street Carpenter said: 'I will go no further.' Then I said: 'You are in Illinois and I arrest you. I am doing you a good turn by bringing you over here. Carpenter said he would not be arrested, and tried to get out of the carriage. I grabbed him and he drew me out and pushed me down. He is a big man, I weak from a recent illness and could not fight him. I drew my revolver and Carpenter said 'don't shoot, Walker, I am a man.' I didn't shoot for I don't know what right I had to do so, as I am not certain about my jurisdiction. When I lowered the revolver Carpenter put his gun on me and ordered me to keep away. I did it. He then hurried on to the Goodwin house and drove away while I had a warrant issued in Justice Booth's court for his arrest as a fugitive from justice."

MR. TREVOR WAS VERY PEPPERY.

Former Janesville Pastor Has a Little War in Fond du Lac.

Rev. G. H. Trevor has been preaching prohibition vigorously in Fond du Lac and his return to the Fond du Lac church for another year has caused much protest. One of Mr. Trevor's declarations was that he did not think it consistent for a preacher to talk on temperance questions and then employ as his family physician the "whisky mayor" of the city. Fond du Lac Methodists say there will be a falling off of twenty-five to two hundred members of the Division street church owing to the return of Mr. Trevor. Mr. Trevor has told friends in Fond du Lac that he had not yet made up his mind whether to accept or reject his appointment to the Division street church.

SPOONER DRAWS MEN FROM MANY TOWNS

MEETING TONIGHT WILL BE A ROUSING ONE.

Clinton, Milton, Milton Junction, Beloit and Evansville Send Delegations—Special Train on Tuesday Will Be Jammed With McKinley's Admirers—Last Night's Meeting.

Hon. John C. Spooner will open the campaign in Janesville this evening. He will speak in the opera house and large delegations will be here from other towns. A special car will be attached to the stock freight from Clinton at 7 o'clock and will bring fifty from there and Milton, Milton Junction, Evansville and Beloit will be well represented.

Members of the Young Men's Republican club will meet in the municipal court room at 7 p. m. to act as escorts. Ample provision will be made for seating the club.

STARTLING G. A. R. STORY

Capt. Geo. H. Davenport, the Popular and Well-Known G. A. R. Veteran Relates An Experience. A Leader and Power In Grand Army Circles.

CAPT. GEO. H. DAVENPORT.

Captain George H. Davenport of Bernardston, Mass., is a most popular and widely known man, especially in Grand Army circles. He is pension agent and everybody knows him. He is best known to the whole country through his discovery of "Davenport's Silver Pomade," probably the best article of its kind in the world.

Captain Davenport is a most entertaining speaker, and his relation of the following incident will be interesting to everybody.

"I had been troubled severely for years with heart disease, and the effects of malarial poison contracted in the army. I was so nervous and weak that I was unable to do any hard work for years.

"I consulted many doctors but have found no good results from them. I finally used Dr. Greene's Nervura blood and nerve remedy, and can say that it has done great things for me.

"I have been helped in the heart trouble more than from any and all other things I ever used. I find that for weakness and nervous excitement it is a great help. For instance, on Memorial Day, I addressed the G. A. R., at Northfield, and on the following day at Whately, I gave an address before their G. A. R., without

HERE AND THERE.

A Spaniard recently arrived in Amaca, Mexico, and secured permission to search for the buried treasure of an old band of brigands. He found an iron box full of coins near the foundation of the cathedral. Rumor puts the contents at \$500,000.

A schooner went ashore off the coast of Maine recently and the captain and crew abandoned her to get aid. In the meantime the schooner worked off the sandbank and sailed away, going several hundred miles before being picked up by a steamer.

A doctor who was passionately fond of cards was called to the bedside of a patient. He pulled out his watch, felt the sick man's pulse and began to count, "seven, eight, nine, ten, jack, queen, king, ace." The patient immediately burst out laughing and got well again.

A custom that has existed for several centuries is still maintained in some towns on the lower Rhine. On Easter Monday—auction day—the town crier or clerk calls all the young people together and to the highest bidder sells the privilege of dancing with the chosen girl, and her only during the entire year. The fees flow into the public poor-box.

Burglars lately broke into the house of an old gentleman in Paris, and after helping themselves to the silver and valuables gave him a lecture on his wickedness in hoarding up capital which belongs to society in general. The papers in telling of the robbery spoke of a bundle of securities worth 20,000 francs which the thieves had overlooked, and that night they called again at the house, demanded the securities and carried them off.

Professor Leslie says that water, at a depth of 362 miles, would be of the density of quicksilver, and that air at a depth of only thirty-four miles would be as thick and heavy as water. It is true that we are ignorant of the laws of compression beyond a depth of a paltry few thousand feet, but it is believed that water at the center of the earth would be as dense as lead, and that a block of steel four feet square would be reduced to the size of a child's ABC block.

Digestible Bread.

It long since came to pass that the cook and the epicurian and everybody demanded an artificial method for

any apparent fatigue, which I could not have done before I used Dr. Greene's Nervura.

"I have often recommended this wonderful cure for disease to my friends, and shall be happy to answer any further inquiries from anyone."

The experience of the gallant captain is the experience of everybody. All who use this great curer of disease, this restorer of health and strength, Dr. Greene's Nervura blood and nerve remedy, report that it invariably makes them well.

The weak, nervous and ailing should try it on the strength of what everybody who has used it says of its wonderful curative powers. It will cure you.

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th street, New York city. If you take this medicine you can consider yourself under Dr. Greene's professional care, and you can consult him or write to him about your case, freely and without charge. This is a guarantee that this remedy will cure, possessed by no other remedy in the world.

making the bread light. Nearly all of the preparations used for that purpose did nothing but to raise the bread. It is quite evident, both from a chemical and physiological standpoint, that something more was needed. I think it is found in Horsford's Baking Powder, as it supplies constituents not only necessary for raising the bread and therefore making it more digestible, but also supplies the nutritive elements necessary for nutrition, (tenth times lost in bolting the flour. It ought to supersede all other bread-making methods, for the above reasons.

Wool—I didn't take any vacation this year; I didn't need one. Van Pelt—But you worked hard, didn't you? Wool—Yes, but you see I saved myself a good deal by not taking any last year.

Ethel—Here is the loveliest house-coat that I bought for Tom, and he doesn't seem to care for it the least bit. Clara—I can tell you how to make him value it above everything. Ethel—Oh, how. Clara—Tell him that you have given it away to some poor man.

She had met him for the first time that evening at a function, and half an hour or so later, when some of the party rather doubted a story he had told, he appealed to her. "You don't think I'd tell a lie, do you?" he asked in a somewhat tender strain. "Well," she replied cautiously, "I don't know. What business are you in?"

"I wonder," said Mr. Wedderford, "if there is anything in the theory that sunlight will cure baldness? I have half a notion to try it." "I don't believe there is anything in it," responded Mrs. Wedderford. "You have been right in the glare of the footlights for more than ten years, and the closer you sit the balder you get."

Rev. Dr. Fourthly, accompanied by Mrs. Fourthly, was making a pastoral call at the Schackelford dwelling, and had unconsciously prolonged his stay until the afternoon sun was low in the sky and Tommy Schackelford had begun to grow hungry. Burning with righteous indignation and moved by a strong sense of personal ill-treatment, Tommy strode into the parlor. "Maw," he said, in a high-pitched voice, "you'd better get a gait on you. If paw comes home and finds supper ain't ready again he'll raise the darndest row you ever went through anywhere!"

WOOL DROPS 40 PER CENT.

Why doesn't wool advance as the democrats promised? Rock county farmers are asking this question, but the market reports give them no encouragement. In two years the decline in merino wools, which constitute the bulk of the American clip has exceeded 40 per cent. Although woolen goods are advancing in Europe American wools are going down at a time when our mills are the busiest woolen mills in the world, for they have free raw material and the McKinley law protection until January 1, 1895. These are unassailable facts. Sellers, in their efforts to recover the trade of those American mills that since the passage of the free wool bill has been transferred to foreign wool markets, have offered concessions on the domestic staple, and a decline of from 10 to 16 per cent on the merino grades has taken place since the passage of the free wool bill without having greatly increased the demand. A contrast between busy woolen mills and a dull wool market, with falling prices, is one of the first fruits of the repeal of the duty on wool. A Chicago Tribune dispatch sums it up by saying that many manufacturers who, previous to the putting of wool on the free list, were using American wool exclusively are now using foreign. Others are now using foreign wools to mix with domestics who heretofore were using the latter exclusively, so the promised increased use of domestic wool for mixing purposes has not been fulfilled but the latter has been so far displaced by the use of foreign that concessions in prices have been necessary on some grades to place them on even terms with foreign. Under the free wool bill the only declining markets in the world are in the United States and the advancing markets are foreign markets. Domestic wools have declined at a time when the American mills are the only mills in the world that are really crowded by orders.

The New Jersey syndicate that proposes to dredge for money lost in the wreck of a British man of war in 1780 may not have money to burn, but it evidently has money to sink; and it will not take long to sink it, either.

Senator McPherson has not decided to put his cook on the stump this fall, to tell about the sugar speculation.

Andrew Carnegie not long ago endorsed the democratic tariff bill as good for the country, but we notice

the wages of all his employees are to be reduced. Perhaps he thinks lower wages beneficial.

Milwaukee is importing barley from Russia. It only costs 47 cents laid down in New York. Under the democratic Havemeyer bill American farmers are expected to work cheap. Russia raises good barley and the price of labor is such she can raise it cheap. One invoice, 117,000 bushels has been received.—Chicago Inter-Ocean.

It is really cruel on the part of those hard-hearted editors who criticize Mr. Cleveland for not making public his private opinion of Hill's nomination. If he did it couldn't be printed in a family newspaper.

When Mr. Cleveland said that Senator Hill's nomination was "the best thing possible under the circumstances," he was doubtless thinking of the certain defeat that confronts Hill.

Ex-Secretary Whitney winks the other eye when asked how he likes the situation. It is presumable that the more Mr. Cleveland worries over it the better Mr. Whitney will like it.

Cyclones that do a million dollars' damage are hardly noticed since the experience of the country with the democratic storm, which has left no section undamaged.

The only thing that has occurred in Hill's favor since his nomination for governor, was the bait of the New York Times and the Evening Post, the cuckoo organs.

It seems that Daniel Wriggler Voorhees is beginning to realize that the dreaded "ex" is on his trail.

CHARGE OF FIRING FORESTS.

It is Brought Against a Lumber Firm in a Suit at Minneapolis.

MINNEAPOLIS, Minn., Oct. 6.—A paper filed in the District court yesterday makes the startling charge that an employee of Laird & Boyle, who owned a saw mill, set the fire which afterward burned Hinkley. The paper is an answer to a suit brought by Laird & Boyle against Wisdom & Cannon, who also own a mill at Pine City, with whom there were negotiations pending for an exchange of properties, the defendants to put in a note for \$1,500 and make some other concessions. The answer alleges that the plaintiffs ought not to recover, since the mill was burned Sept. 1, 1894, by a fire, "which was set and kindled by the plaintiffs, their servants and employees, that it occurred wholly and solely by reason of the carelessness and negligence of the plaintiffs and their employees, and that the fire so set and kindled was the same fire which thereafter and on the same day destroyed the village of Hinkley and a large amount of timber, as the defendant verily believes."

AH JES' DONE IT, MAN: DATS ALL AH KNOW.

CHARLES SMOOTS RUNS OFF
WITH A CHARMER.

He Doesn't Know Why the Ebon Mrs. Smoots Was Distasteful to Him, But Rather Thinks His Head Must Have Been Giving Him Trouble.

"Fo' Gawd Ah doan' want to tell nuffin but de truf. Ah doan' want tell nuffin but de truf. Ah done hit, an' Ah'se gwine tell truf 'bout hit. Why Ah done hit? Fo' Gawd Ah doan' know; but Ah jes' done hit, an' dat's all dere is 'bout hit, an' Ah'se goin' to tell de truf 'bout hit."

So said Charles L. Smoots, the colored man of Chicago, who eloped with Lillie Murray and married her, leaving a wife and family.

Detective Ryan of Chicago, brought Smoots back from Minneapolis on the vestibule this morning. Mrs. Smoots has two or three hundred dollars saved up and she intends to spend it all if necessary in making William see his error. A charge of bigamy awaits him. A Gazette reporter who saw him on the train and heard his story asked him if he wanted to see his wife.

"No'n deed, man," he said, "no'n deed. Ah doan' want no mo' of dat woman. She done gib me trubbel 'nough. Ah'se gibin' me trubbel in mah head, an' Ah done tink Ah didn' know wha' Ah were doin' when Ah run way wid dat gal. Ah hed so much trubbel in mah head."

MAKING A VIGOROUS CANVASS.

Messrs. McKenzie and Clark Find It Easy To Talk Gazette.

"This is the easiest job I ever struck," said D. A. McKenzie, as he and his fellow-canvasser A. L. Clark came in from their morning's work to-day. "The only reason anybody gives for not taking The Gazette is that times are too hard to take any paper at all. If they can take any paper they seem to want The Gazette. Whenever we find a family without a paper it is easy work to get a subscription. Non-subscribers are so scarce, though, that we have to walk a long ways sometimes to strike an opening."

"People like the telegraph service The Gazette gives them, and they like the general matter too, but they look for the local news most of all. When they think of the twelve columns a day of live local they figure that they can't spend two cents a day to better advantage."

Pieces Because It Is True.

When a thing is free and at the same time contains a great value, being just what everybody wants, it is eagerly sought by all. Every weak, delicate or sickly person will be pleased with the great and generous offer of Dr. Greene, of 35 West 14th street, New York City, the noted and successful specialist in curing nervous and chronic diseases. He has established a system of free letter correspondence, whereby all may write him about their complaint and receive in return a complete description of their ailments, explaining thoroughly the meaning of each symptom, and telling just what to do to be cured. The doctor makes a specialty of treating patience through letter correspondence, giving most careful and explicit attention to every letter, and explains your case so minutely you understand exactly what your trouble is. All this costs nothing. All those who cannot afford the time or expense of visiting the city can now have the most skillful consultation and advice free of charge, and without leaving their homes. The method is successful. Thousands are being cured by it. Try it. Write the doctor and it will undoubtedly be the means of your getting well.

SHE TRIED TO BLACKMAIL HUYKE

Mrs. Annie Daniels Impeached and Charged With Attempted Extortion.

The case of the state against William Huyke, of Magnolia, was called in the municipal court this morning. Mr. Huyke was charged with assaulting Mrs. Annie Daniels, while giving her a buggy ride. The complaining witness was quickly impeached by three or four witnesses. H. S. Sloan, who represented the state, saw that it was a case of "black mail," and he at once moved to dismiss the case, which the court ordered done.

Mrs. Daniels testified that she was married but said she had lived with her husband only two weeks. The defendant's mother testified that Mrs. Daniels had come to her and threatened to "put Will in a hot place unless somebody cashed up."

A Local On Fall Wraps.

The cloak business so far has been all we could ask, and the ladies tell us ours is the only line of new garments in the town, all of which is very pleasant to us but a little tough on the other fellows. Each season adds more force to the statement that we save customers 25 to 33 1/2 per cent. on every coat we sell, a fact that cloak buyers in large numbers are finding out every day. RUINED AN \$80 SAFE FOR \$9 IN PLUNDER

ROBBERS TACKLED EDGERTON
LAST NIGHT.

They Broke Into the Office Of the Creamery Company and Tore the Strong Box to Pieces—Results Of Their Night's Work Very Slim.

Safe robbers are close on the heels of the hardware thieves. Six robberies within a week and each one coming nearer to Janesville. Last night Edgerton was visited and the office of the Edgerton Creamery Company was invaded. A crowbar, brace and bit were secured in a blacksmith shop and the creamery safe was pretty well ripped to pieces. The safe was worth \$80, and if the thieves could have panned it they would have done considerably better than they did. All they found was nine dollars in cash.

One safe a night is the record that has been made by the gang for the last week. Jefferson, Johnson's Creek, Combridge and London are the points last visited. No clue to the robbers has been found. No big hauls have been made, the men hardly doing more than a fair day's wages.

"Woman's Love."

O, my love! let me come to thee, Thy eyes, thy lips, are inviting me, What of thy heart? Does that too call To me, fairest maiden of them all? Heaven may be a perfect home, Where "angels" sing, and "cherubs" roam But all the "heaven" I care to see Is here on "earth" sweet-heart with thee.

Thy dewy kisses give me life I forget all sorrow, pain and strife, With thy pure breath upon my cheek; And thy tender words, thy tongue doth speak.

This is heaven enough for me, I would "barter my soul" for a life with thee, Man's greatest blessing in the world to-day, Is "woman's love" when it has "full sway."

What are we here for, you and I— But to live while we live, and die when we die.

"Love" is the "axis" upon which the world turns; If we try to quench it the fiercer it burns, The "wheels" are all "spoked" with warm, red heats.

Beating faithfully, to perform their parts, I say those who laugh at love to-day, Are the ones to be "pitted" for aye and aye.

CLOTH COSTUMES.

Tailor Made Gowns and Stylish Outside Wraps.

The new autumn coat cloths are darker in color than those worn during the spring and summer, the tan and gray shades of warm weather being replaced by brown, green, olive and wine tones. These and other worsted fabrics intended for fall and winter wear combine warmth of appearance with lightness and softness. Some pretty dark plaids are shown, large, but inconspicuous, in two or more tones of the same color, while a line of rough, loosely woven goods has appeared, also dark, with a boucle effect in bright threads on the surface. There are indications that curly astrakhan cloth will be used as trimming this winter. Its popularity usually coincides with that of boucle goods.

Tailor made gowns have a plain skirt with a silk lining, stitching being, of course, the accepted style of decoration. White linen collars and cuffs are again in vogue as the accompaniments of these severe costumes.

An attempt is being made to revive the loose sack form in outer garments, but it will probably fail, for the style is an ugly and disfiguring one. A much more desirable fashion is that of the long tight redingote, which shows signs of coming to the front again. This is one of the few garments becoming to both large and slender women. As for capes, they are too convenient to be abandoned so long as large sleeves predominate, and their popularity is therefore likely to be prolonged indefinitely.

Plain skirts are still seen in the majority of gowns, although a recognition of the claims of the draped skirt is sometimes shown by means of plaited panels at the sides or a lace covered tablier. These devices give variety, while they do not add greatly to the weight.

An illustration is given of a costume of brown cloth. The plain skirt has plaits at the side and back and is finished around the foot with five rows of stitching. A stitched strap trims either side of the front at the bottom. The plain round bodice opens over a crossed vest of white bengaline and that again over a cloth plastron. The bodice has a pointed ripple basque and a cloth belt, from which depend two stitched straps. Straps also form the cuffs of the gigot sleeves. JUDIC CHOLLET.

HANDS, FEET AND HAIR.

Keep the Fingers Rosy, the Feet Warm and the Hair Glossy.

The manicure is an institution useful and proper, but personal attention to the nails and hand is better. The woman of good taste has her finger nail cut exactly to the round of her finger, matching the half moon below and just protruding the tip. It is filed simply to smoothness and rubbed only to remove roughness and marks. A weekly polish with the rose tinted and rose scented salve, washed away with the brush in warm water before finishing, answers all the needs of the nails thus kept, while before the polishing the nail has been thoroughly cleansed, so that no loose skin or hard particles adhere to the sides or base, in order that no hang-nail can be formed to work or tear down the quick flesh. Every woman who wishes this done can do it for herself.

A simple and often effectual remedy for cold feet consists in substituting fine woolen hosiery for that made of cotton and lisle thread. Many women have a prejudice against woolen stockings, but the smooth cashmere weaves have very little of the irritating quality common to coarse

COIFFURE.

worsted and are quite as pretty as thread hosiery, besides holding the color better. They are particularly recommended to persons who go out in rainy weather, as the danger of catching cold from wet shoes is less when wool is worn next the feet.

Fashion is unusually sensible in the matter of footwear just now. Low heels and medium width toes are the rule for street boots, with a vamp long enough to give slenderness to the foot. The Blucher style still holds its own, but should be worn only by a woman having narrow feet, as it emphasizes breadth.

Tortoise shell articles are to be obtained at wonderfully reduced cost. Large and small combs and ornamental pins, both carved and plain, as well as the ordinary hairpins that many women prefer to those made of wire, may now be bought at almost as low a price as was once charged for the imitation goods. The catogan roll of the coiffure in the sketch is held in place by a shell pin like a slender, curved triangle—one of the prettiest, because the most natural seeming of the many styles of ornament. JUDIC CHOLLET.

A Fashion Note.

It is whispered about among the select fashionable circles of Willie boys in London that side whiskers are to be the correct thing in face foliage as the season advances.

UNITED BRETHREN CONFERENCE

Lima People Hear Good Sermons—Rev. Mr. Thayer Preaches There This Week.

LIMA, Oct. 5.—Last week a good delegation of ministers and laymen of the United Brethren church met here in their annual conference. The preaching was good throughout the entire session, and on the Sabbath two excellent sermons were delivered by Bishop Wells. Rev. Mr. Thayer is to preach here the coming year. Miss Mina Jones, who has been visiting relatives in this community the past six weeks, left last Thursday for her home in Spring City, Iowa. Elijah Barker is under the doctor's care. Rev. Carpenter, the new pastor of the M. E. church, is expected to preach here Sunday at 2:30. Sabbath school at 1:30. Mr. and Mrs. Coats are attending the Jefferson fair. A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 105 pounds, her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her."

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. K. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It is positively free from opiates or dangerous drugs.
